

REFLECTION PRODUCTS

SAFETY AND SECURITY PRODUCTS

- 90°, 200°, and 360° actual viewing angles available.
- For in-door use.
- ¼ and ½ Domes have a foam stiffener to add strength to the mirror. All the ALH domes are open back (no back plate)
- ½ and ¼ domes have a ceiling grid clip-on mounting system and holes in the flange for direct surface screw mounting. The Full dome mirrors have chain mounting hardware (chain included)
- No assembly required; comes fully assembled.
- Made with mirror-grade acrylic for excellent reflective properties.

AL-H SERIES DOMES

Half Dome Mirror
Safety & Security Mirrors

- Use in stores, intersecting hallways, reception areas, outside elevators, parking garages, at intersecting traffic lanes, etc.
- Use to see around corners or for viewing a wide area. The dome mirrors will enable you to quickly see if there is a person or object (vehicle or forklift) in the area.
- Clearly see the areas behind you or around a corner, hidden entranceways, or blind areas around your business.

Dome Mirrors

½ and ¼ Clip-on Mounting Clips

Chain Mount for the Full Domes

All of the ALH Series dome mirrors are made from the same mirror-grade acrylic. The Quarter and Half Domes are Coated with a stiffener and have Clip-on Mounts. The Full Domes are open backed and are hung with the included chain mounting hardware. You can optionally flush mount the mirrors using the screw holes provided on the flange.
